Your oral health is important to us! So, we're pleased to announce to you, the newest technology, the laser dental caries detection device. In addition to the intra oral x-rays, the "Diagnodent" measures fluorescence associated with decays within the tooth structure. Our office mission is to provide excellent, quality, dental care for you. Our goal is to treat our family of patients as we would want to be treated. Thank you for the trust you have shown by choosing our office.

Office Hours

MONDAY
7:00am-5:30pm

TUESDAY
7:00am-5:30pm

WEDNESDAY
8:00am-6:30pm

THURSDAY
7:00am-5:30pm

Answering service is available 24 hours a day for emergency or appointment confirmation.

Welcome!

You're new to our practice. Before we get started on your treatment plan, we'd like to share with you our approach to service.

Preventive dentistry is our goal for every patient. It involves the daily care, good nutrition, along with periodic exams and cleanings. Preventive dentistry may not be where we start with every patient, but it's where we like to finish.

Restorative dentistry is basic repair of the mouth. We mend old silver broken-down fillings, with new cosmetic bonded fillings then build crowns and bridges. We also make well-fitting,

natural-looking partials and full prosthetic appliances. Where necessary, gum disease is treated through complete oral hygiene therapy and instruction. Preserving your teeth through root canal treatment may be recommended. The prevailing belief behind restorative dentistry is a simple one: you can keep all your teeth and provide you with a life-long smile.

Cosmetic dentistry is coming of age with new material and procedures that make a beautiful smile accessible to everyone. Because our preventive and restorative programs have been so successful, we now

have the luxury of considering cosmetic treatment. We provide services for all gaps, chips, and shades of less-than-perfect smiles. Don't hesitate to ask us about our recommendations on how to improve a brighter, whiter, healthier, smile.

Our office protects your medical information. Please give any updates or changes pertaining to this.

New patient arrivals are recommended to register 15 minutes prior to appointment.

We look forward to meeting you and again, welcome!

Broken Appointment Policy

A broken appointment is when a patient misses, forgets, and doesn't arrive on time for their reserved dental appointment. When this occurs, this affects the entire office. With sufficient notice of cancellation (48-hour recommended), we are able to help others. While the first offense is just a reminder of our policy, the second offense is possibly a charge and must be paid prior to being seen in the office. We are committed to serving all of our patients and thank you for your consideration and cooperation.

Financial Policy

When we welcome a new patient to the practice, we welcome any questions you may have about our office policies, insurance, and of course, fees. We work hard to control the cost of dental care. It's part of our policy

that quality care should be available to everyone. Insurance makes life easier. Each policy is different. When payment from your insurance is received, it is applied to your account. Guarantor is responsible for all treatments

not covered by insurance. All payment is expected upon any services rendered. For your convenience, we offer Care Credit Card, MasterCard, Visa, and Discover, as well as cash and check.
